I have been making a Chrome app called [Postman](#) for this type of stuff. All the other extensions seemed a bit dated so made my own. It also has a bunch of other features which have been helpful for documenting our own API here.

▼

Postman now also has [native apps](#) (i.e. standalone) for Windows, Mac and Linux! It is more preferable now to use native apps, read more [here](#).

1 ▲ Any intentions of porting this over to Firefox? (Or anything other than chrome) – [Oli](#) Feb 8 '16 at 11:06

▲ Does Postman work for testing on localhost URLs? – [Praxiteles](#) May 30 '16 at 2:35

1 ▲ Yeah. It works for localhost URLs just fine. – [Abhinav](#) May 30 '16 at 5:39

Agenda

Road to GSoC

- Do you know any language?
- Are you familiar with the version control?
- Do you have excellent verbal and written communication?

Start Your Journey With GSoC

1. Select organization(s)
2. Start contributing
3. Keep contributing until the organizations are announced
4. Make a outstanding Project Proposal
5. Continue contributing
6. Grab a coffee and wait For the Result :)
